## **DETAILED ACTION**

### ***Drawings***

1. The drawings were received on September 30, 2004. These drawings are approved; however, further corrections are required as described below.
2. The drawings are objected to because separate figures are not separately labeled. See especially Figs. 3A, 3B, 3C, 9A and 9B, which have not been separately labeled. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

3. The disclosure is objected to because of the following informalities: The specification does not refer separately to separate figures 3A, 3B and 3C. Furthermore, although the

Art Unit: 2653

specification refers separately to separate figures 9A and 9B on page 16, lines 23 and 27, it fails to do so on page 8 in the brief description of the drawings. See especially page 8, lines 7-8, page 11, lines 17 and 23, page 12, lines 21 and 26, and page 16, lines 23 and 27.

Appropriate correction is required.

4. The Examiner asks that Applicant please amend the drawings and the specification in a mutually consistent manner.

5. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

***Allowable Subject Matter***

6. Claims 1-12 are allowed.

7. The following is an examiner's statement of reasons for allowance: See reasons for indicating allowable subject matter mailed June 30, 2004, paper no. 6. See also Applicant's arguments filed May 24, 2004, which have been rendered persuasive by the amendment to claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

8. This application is in condition for allowance except for the following formal matters:

Objections to the drawings are outstanding.

Objections to the specification are outstanding.

An objection to the title is outstanding.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
